

FLEET VU

MANAGER • MOBILE • CLOUD

TELEMATICS, VIDEO AND VEHICLE INSPECTIONS IN A COMPREHENSIVE DRIVER BEHAVIOR / FLEET MANAGEMENT PLATFORM

Pre Operation Inspection

Quick Pass

Beginning Mileage

Turn Signals

head lights (always on)

Tail lights

Hazard lights

FLEET VU

MOBILE

FleetVu Mobile customizable inspections provide immediate interaction with FleetVu Manager &/or FleetVu Cloud and your management & maintenance teams to seamlessly manage vehicles on a daily basis.

- Pre / Post-operation inspections (text &/or emails immediately notify management of unsafe conditions)
- Breakdown / in-operation inspections
- Maintenance requests
- Automatically pairs drivers/vehicles

FLEET VU

CLOUD

FleetVu Cloud allows easy management of fleet and driver performance data and video anywhere with an internet connection. Optimize ROI, efficiency, and educate your team to reduce driving accidents and costly behaviors associated with them.

- Store and manage fleet video along with drivers, equipment & vehicles in the cloud
- Load video system firmware and configurations wirelessly
- Powerful mapping and reporting
- Driver scoring and more...

ENHANCING FLEET SAFETY, EFFICIENCY & ROI WITH VIDEO & THE CLOUD

The FleetVu Suite provides a fully modular, customizable and user-friendly interface to securely manage your fleet and drivers, from vehicle inspections to telematics to incident video review. FleetVu provides three options: a driver app, cloud video storage & fleet management, and asset tracking & telematics tools.

FleetVu Mobile interacts seamlessly with the other components for:

- Pre/Post-Operation & Breakdown Vehicle Inspections
- Automatic Driver/Vehicle Assignment
- Maintenance Requests

FleetVu Cloud provides robust driver and vehicle management tools that

are accessible anywhere with an internet connection, including:

- Driver Performance Analysis
- Incident Data & Video
- Powerful Reporting Tools

FleetVu Manager adds powerful real-time asset tracking, alerts and telematics capabilities...
